

Alabaster

 **LEDS-C4**

LA PIEDRA NATURAL COMO DIFUSOR DE LA LUZ

LEDS-C4 fusiona la innovación tecnológica con el arte de la escultura.

Reforzada, pulida y barnizada, la piedra de alabastro combinada con una cálida iluminación interior, ofrece unas posibilidades de aplicación infinitas. Las particulares características translúcidas de este material tamizan y difuminan la luz para eliminar el efecto duro y a veces frío de la luz directa. Las vetas y las aguas de cada piedra convierten a cada pieza en única proporcionando un aspecto de lujo, noble y cálido.

El riguroso proceso desarrollado por LEDS-C4 para la elaboración de la piedra de alabastro permite disponer de un material de excepcional calidad y gran distinción. Pues la extracción se hace, en general, a cielo abierto, con sistemas no agresivos para proteger la integridad del material.

Los productos de este catálogo, como todos los productos de LEDS-C4, siguen un estricto control de calidad avalado por la certificación ISO 9001 y por la ISO 14001, que ratifica la garantía del sistema de gestión ambiental de LEDS-C4.

NATURAL STONE AS A DIFFUSER OF LIGHT

LEDS-C4 blends technological innovation with the art of sculpture.

Reinforced, polished and varnished, alabaster combined with warm interior lighting offer infinite applications.

This material's special translucent characteristics filter and diffuse light to eliminate the harsh and sometimes cold effect of direct light. Each stone's streaks and ripples make each piece unique by giving it a luxurious, noble and warm appearance.

The rigorous process developed by LEDS-C4 for working alabaster means that we have a material of exceptional quality and distinction. This is because the alabaster is mined from an open pit with non-aggressive systems in order to protect the material's integrity.

The products in this catalog, like all LEDS-C4 products, follow a strict quality control backed by ISO 9001 and ISO 14001 certification. These standards affirm LEDS-C4's environmental management system.

LA PIERRE NATURELLE COMME DIFUSSEUR DE LUMIÈRE

LEDS-C4 fusionne l'innovation technologique avec l'art de la sculpture.

Renforcée, polie et vernie, la pierre d'Albâtre se combine parfaitement avec une illumination d'intérieur qui se veut chaude et accueillante, tout en offrant une multitude de possibilités d'application. Les caractéristiques translucides et particulières de ce matériau tamisent et estompent la lumière afin d'éviter l'effet parfois sec et froid de la lumière directe. Les veines et les eaux de chacune des pierres transforment chaque pièce en un objet unique tout en lui apportant une aspect luxueux, noble et chaleureux.

Le rigoureux processus développé par LEDS-C4 en vue de l'élaboration de la pierre d'Albâtre permet de disposer d'un matériau d'une qualité exceptionnelle et d'une grande noblesse. L'extraction se fait, en général, à ciel ouvert, à l'aide de systèmes non agressifs afin de protéger l'intégrité du matériau.

Les produits de ce catalogue, à l'instar de tous les produits de LEDS-C4, sont soumis à un rigoureux contrôle de qualité analysé par les certifications ISO 9001 et ISO 14001.

NATURSTEIN ALS LICHTDIFFUSOR

LEDS-C4 vereinigt die technologische Innovation mit der Bildhauerkunst.

Der verstärkte, geschliffene und lackierte Alabasterstein, ausgestattet mit einem warmen Licht im Inneren, bietet zahlreiche Verwendungsmöglichkeiten. Die einzigartige charakteristische Transparenz von diesem Material mildert und verteilt das Licht, wodurch der Effekt von Härte und Kälte, die das direkte Licht austrahlt, eliminiert wird. Die Adern und Schattierungen von diesem Stein verwandeln jedes Stück in einzigartig und verleihen ihm ein prachtvolles, edles und warmes Aussehen.

Der von LEDS-C4 entwickelte, rigurose Verarbeitungsprozess des Alabastersteins verleiht diesem Material eine außerordentliche Qualität und Erlesenheit. Die Extraktion des Natursteins wird im Allgemeinen unter freiem Himmel, mit nicht aggressiven Systemen zum Schutz und zur Unversehrtheit des Materials, vorgenommen.

Die Produkte dieses Katalogs, wie alle Produkte von LEDS-C4, werden einer äußerst strengen Qualitätskontrolle unterworfen, garantiert durch das ISO 9001 Zertifikat und die Sicherheit des Betriebssystems von LEDS-C4 wird durch das ISO 14001 Zertifikat als umweltgeeignet bestätigt.

LA PIETRA NATURALE COME DIFFUSORE DI LUCE

LEDS-C4 abbina l'innovazione tecnologica all'arte della scultura.

Rinforzata, pulita e verniciata, la pietra d'alabastro abbinata a una calda illuminazione interna, offre infinite possibilità d'applicazione. Le particolari caratteristiche translucide di questo materiale filtrano e sfumano la luce per eliminare l'effetto rigido e a volte freddo della luce diretta. Le venature e le filigrane rendono ogni pietra unica, con un aspetto di lusso, nobiltà e calore.

Il rigoroso processo adottato da LEDS-C4 per il trattamento della pietra d'alabastro consente di disporre di un materiale di qualità e peculiarità eccezionali. Pertanto, l'estrazione di effettua, in linea generale, a cielo aperto, con sistemi non aggressivi, in modo tale da proteggere l'integrità del materiale.

Il prodotti inclusi nel presente catalogo, così come tutti i prodotti di LEDS-C4, sono soggetti a un rigoroso controllo della qualità, avallato dalla certificazione ISO 9001 e ISO 14001, che ratifica la garanzia del sistema di salvaguardia ambientale di LEDS-C4.

ESTRUCTURA

El sistema está basado en una estructura metálica fijada al techo o pared, incorporando una serie de carriles por los que se deslizan las placas de alabastro. Medidas standard recomendadas: 600x300x15mm.

STRUCTURE

The system is based on a metal structure fixed to the ceiling or wall, incorporating a series of runners through which the alabaster panels can slide. (Standard recommended measurements: 600x300x15mm).

STRUCTURE

Le système est basé sur une structure métallique fixée au plafond ou au mur, qui incorpore une série de rails sur lesquels les plaques d'albâtre glissent. (Dimensions standard recommandées: 600x300x15mm).

STRUKTUR

An einer Wand oder Decke eingelassenen Metallstruktur werden mehrere Schienen angebracht, an welchen die Alabasterplatten entlang gleiten. (Empfohlene Standardmasse: 600x300x15mm.)

STRUTTURA

Il sistema si basa su di una struttura metallica fissata al soffitto o alla parete e incorpora una serie di rotaie sulle quali scorrono le lastre di alabastro. Misure standard raccomandate: 600x300x15mm.

ILUMINACIÓN

La iluminación standard de los paneles está formada por componentes convencionales de fluorescencia. (Reactancias electromagnéticas y tubos de 26mm. de diámetro).

LIGHTING

The standard illumination of the panels is formed through conventional fluorescent components. (Electromagnetic ballast and tubes with 26 mm. Diameter).

ÉCLAIRAGE

L'éclairage standard des panneaux est fourni par des composants fluorescents conventionnels. (Réactances électromagnétiques et tubes de diamètre 26mm).

BELEUCHTUNG

Die Standardausführung integriert konventionelle Leuchstoffelemente (Elektromagnetischer Blindwiderstand und Röhren mit 26mm Durchmesser).

ILLUMINAZIONE

L'illuminazione standard dei pannelli è formata da componenti di fluorescenza convenzionali (Reattanze elettromagnetiche e tubi di 26mm di diametro).

ACABADOS

Disponemos de una amplia gama de acabados en pintura y electrolíticos para los carriles que forman la estructura (consúltenos).

FINISHES

We offer a wide range of paint and electrolytic finishes for the runners which make up the structure. (Please contact us).

FINITURES

Nous disposons d'une gamme étendue de finitions en peinture et revêtements électrolytiques destinés aux rails qui forment la structure (consultez-nous).

oberflächenveredelung

Wir bieten Ihnen eine breite Palette an Finish-Möglichkeiten, vom Farbanstrich bis zur Elektrolytpolitur für die Schienen. Bitte setzen Sie sich zwecks Anfrage mit uns in Verbindung.

FINITURE

Disponiamo di un'ampia gamma di finiture in vernice e in elettrolitici per le rotaie che formano la struttura (chiedeteci un consulto).

Sin pantalla de tela · Without fabric shade · Sans abat-jour en tissu.
Ohne Stoffschirm · Enza schermo di tela

Para conjunto completo solicite referencias de luminaria y pantalla.
For complete set please order by separate fixture and shade references.
Demandez le code de luminaire et abat-jour en cas de set complete.
Für komplette Leuchte, bestellen Sie bitte Lampe und Schirm getrennt.
Per il set completo, chiedere la referencia dell'apparecchio ed il paralume.

Para realizar el pedido de un artículo es necesario colocar después de la referencia del modelo los dos números que identifican el acabado seguidos de los dos números que corresponden al código suplementario.

When placing an order for an item, please quote after the model reference number, the two numbers indicating the required finish and the two supplementary code numbers.

Pour passer commande d'un article il faut indiquer après la référence du modèle, les deux numéros identifiant la finition, suivis de deux numéros correspondants au code supplémentaire.

Bei der Bestellung eines Artikels müssen hinter der Modell-Nr. die zwei Ziffern für die Ausführung und die zwei Ziffern des Zusatzcodes angegeben werden.

Per ordinare un articolo, si deve inserire, dopo la referenza, i 2 numeri per la finitura ed anche i 2 numeri per il codice supplementario.

Informacion general · general information · information generale allgemeine informationen · informazione generale

Las descripciones y medidas de los aparatos del presente catálogo son orientativas, pudiendo por tanto ser modificadas, a fin de mejorar las características técnicas o de diseño / La empresa se reserva el derecho de anular o modificar cualquier modelo sin previo aviso / Todos los modelos presentados cumplen las normas exigidas por la C.E. para aparatos de iluminación de uso doméstico y sus características vienen determinadas por las clases I y II / Los acabados y las especificaciones técnicas corresponden a los productos que se suministran en Europa, pudiendo estos variar en otros mercados / Para una buena conservación de las lámparas, no usar bombillas de potencia superior a las recomendadas y limpiar simplemente con un paño seco. No usar limpia metales, ya que dañan los barnices protectores que garantizan la duración del acabado.

The descriptions and dimensions of the items in this catalogue are indicative and may be modified for the purpose of technical or design improvements / We reserve the right to cancel or change all models without prior notice / All items meet the E.C. Class I and Class II safety regulations for home lighting appliances / The finishes and technical specifications listed here are for the European market and may vary elsewhere / Do not use stronger bulbs than recommended, and always clean lamps with a soft dry cloth alone since metal polish will damage the protective finish.

Les descriptions et mesures des appareils de ce catalogue sont données à titre d'orientation, pouvant être modifiées dans le but d'améliorer les caractéristiques techniques ou de design / L'usine se réserve le droit d'annuler ou modifier l'un ou l'autre de ses modèles sans avis préalable / Tous les modèles présentés sont conformes aux normes exigées par la C.E. pour les appareils d'éclairage domestique et leur caractéristiques sont déterminées par la classe I et II / Les finitions et spécifications techniques correspondent à la demande du marché européen. Elles peuvent être modifiées par d'autres pays / Ne pas utiliser d'ampoules d'une puissance supérieure à celle recommandée. Pour un bon entretien, utiliser simplement un chiffon sec. N'utilisez aucun produit pur métal, ils abîment le vernis protecteur.

Die Beschreibung und Maße der in diesem Katalog aufgeführten Modelle dienen zur Orientierung und können zur Verbesserung der technischen Eigenschaften oder des Designs geändert werden / Der Hersteller behält sich das Recht vor, Modelle zu ändern oder aus dem Programm wegzunehmen / Die geeigneten Modelle erfüllen alle die innerhalb der EU geforderten Normen und Richtlinien für Leuchten für allgemeine Beleuchtungszwecke der Schutzklassen I und II / Die Ausführungen und technischen Daten gelten für den europäischen Markt und können in anderen Ländern abweichen / Für eine gute Erhaltung der Leuchten bitten wir immer den empfohlene Leuchtmittel zu benutzen (keine höhere Leistung). Zur Reinigung benutzen Sie einfach ein trockenes Tuch, da Metallputzmitteln die Schutzlackierung angreifen können.

Le descrizione e le dimensioni degli articoli del presente catalogo vengono fornite a mero titolo orientativo e possono pertanto essere modificate al fine di migliorarne le caratteristiche tecniche o di design. / La Casa si riserva il diritto di cessare la produzione o di modificare qualsiasi modello senza preavviso. / Tutti i modelli presentati sono conformi alle normative C.E. per gli articoli da illuminazione per uso domestico di classe I e II. / Le rifiniture e le specifiche tecniche corrispondono ai prodotti venduti in Europa; tali dati possono pertanto variare su altri mercati. / Per una buona conservazione delle lampade, non utilizzare lampadine di potenza superiore a quella consigliata e pulirle semplicemente con un panno asciutto. Non utilizzare prodotti per la pulizia del metallo che potrebbero rovinare le vernici di protezione che garantiscono la vita della rifinitura.
